Travel to the UK

How to apply

You have the option to submit your visa application from your country of nationality, or if you are a legal resident elsewhere, you may apply there. However, applying from a country you're solely visiting is **not permitted**.

Applying within the UK is only allowed under specific circumstances; for more details, click [here](#). Importantly, you cannot enter the UK as a visitor or without a visa and subsequently apply for your Student Visa.

Before initiating your application, ensure you have obtained your Confirmation of Acceptance for Studies (CAS) from NU London. Our dedicated Visa Compliance team will handle the creation of your CAS.

Students eligible to apply for their visa within the UK can do so no earlier than three months before their course start date. When applying from your home country, you'll need to register for and complete an **online application**.

Applicants who don't need to submit evidence

If you are a national of one of the countries below, your application will come under the 'differential evidence requirement' and you will not have to submit evidence of funding

or your qualification listed on the CAS at the time of the visa application.

If you rightfully hold passports from more than one country, you can benefit from the arrangement as long as one of your nationalities is on the below list and you are using that passport for your visa application.

Australia, Austria, Bahrain, Barbados, Belgium, Botswana, Brazil, Brunei, Bulgaria, Cambodia, Canada, Chile, China, Croatia, Republic of Cyprus, Czech Republic, Denmark, The Dominican Republic, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Indonesia, Ireland, Italy, Japan, Kazakhstan, Kuwait, Latvia, Liechtenstein, Lithuania, Luxembourg, Macao, Malaysia, Malta, Mauritius, Mexico, Netherlands, New Zealand, Norway, Oman, Peru, Poland, Portugal, Qatar, Romania, Serbia, Singapore, Slovakia, Slovenia, South Korea, Spain, Sweden, Switzerland, Taiwan, Thailand, Tunisia, United Arab Emirates, United States of America.

You must make sure you have the correct evidence of funding ready in case you are asked for it later in the application process. Please note that your application could be refused if you are not able to provide the specified documents within the requested time period.

Nationals who require a TB test certificate as part of their visa application will still need to submit their TB certificate.

Starting the online application

Here is the [link](#) for applicants who are applying outside the UK.

Applicants who are applying from inside the UK, please click [here](#).

Completing the online visa application form

Where are you planning to live?

Select 'England, Scotland, Wales or Northern Ireland'

Do you have a current EU, EEA or Swiss passport?

Choose as appropriate.

EU/EEA/Swiss nationals

You will now be directed to confirm your identity using the UK Immigration: ID Check phone app and to create an account for your application. You will not need to attend an appointment to give biometrics.

If you are using iOS (an iPhone 7, 7 Plus or newer) iOS 15 or later- to find the software version installed, go to Settings-General, then About. Please click [here](#) to download the app.

Please ensure that you have at least 120MB of storage space to download the app on an iPhone.

If you are using Android (Android 8.0 and above) at least 135MB storage to install the app, please click [here](#) to download the app. You have to be connected to 3G, 4G, 5G or WiFi and your phone must have NFC (Near-Field Communication) capabilities so the app can scan your document – you can find this in your settings. If you can use your phone to pay for things using contactless, this means it has NFC and you can use the app.

After you have verified your ID documents, you will be redirected to complete your visa application. Please skip to the Scholarship section below and carry on answering the question on the visa application form. **Please kindly note that the order of the questions may differ.**

If you cannot use UK Immigration: ID Check phone app to verify your document, you will be redirected to the standard Student Visa application form. However, you will need to attend a biometric appointment. **Please inform your Visa Compliance Officer if you cannot use the app and they will provide you with a Biometrics Appointment Guide.**

Select a country to provide your biometrics (non-EEA/Swiss applicants only)

Enter the name of the country where you are making your visa application. Please note that you must apply either in your country of nationality or in the country where you have the right to reside if it is different from the nationality on the passport you are using for your application. If there is no centre for providing biometrics in your country of application, you will be told where to go to provide your biometrics. Do not select 'United Kingdom' here unless the Visa Compliance Team has confirmed you can make an in-country application.

You then need to confirm you can get to a biometric enrolment location in your country.

Register an email and telephone number

Follow the instructions to create a password for your application. UKVI will send a link to your email address. You will need to confirm that the email address is yours.

- You can add additional emails, including your parent's address here too.
- Add your telephone numbers.
- Answer "Where do you use this telephone number?"
- Select whether this is your home, mobile or work telephone number.
- Provide any other telephone numbers (Please note that at this point you can add additional phone numbers including your parent/guardians).

- Please choose the preferred way you wish UKVI to contact you. Please note you may have to provide a reason for your preference.

If you are starting a new course, enter the course 'Start Date' as shown on your CAS statement.

Personal details

Given name(s)/Family name

Write your name exactly as shown in your passport and CAS statement. Include middle/other names with your Given name(s) exactly as shown in your passport and CAS statement.

If you only have one name, click on 'I do not have a current passport or travel document' and then 'I do not have both a given and family name'. You will then be able to provide one name.

For Singaporean and Malaysian passports, the name order may be slightly different in your passport to the name order on your CAS statement. In this case, please enter your family name in the relevant section and all other names under Given name(s).

Have you had any other names?

Please select 'No' unless you have officially or legally been known by another name. You will then need to provide information regarding your previous legal name.

Information regarding your passport:

If you are not an EU/EEA/Swiss national, you must have one blank page/side in your passport for your visa vignette.

Your passport needs to be valid at the time of application and for your intended arrival in the UK. It is not necessary at the time of your application to have a passport that will be valid for the entirety of your course.

This is because you will be issued a 90-day travel visa vignette/sticker in your passport and then you will be able to generate an e-visa at the time of your visa outcome. This visa will be valid for the duration of your course with some additional time.

If you cannot find any test or qualification listed as evidence of English Language, then the NU London must have used an option to exempt your English language requirement for any of the following reasons:

- Student is coming to study a study abroad programme; or
- Migrant holds degree from a majority English-speaking country.

There are several options on the application form for meeting the English language requirement, you only need to answer yes to one of them. Please contact **visa@nulondon.ac.uk** if you are not sure about this.

Documents

You will now have to confirm that you are providing the the documents listed in your UKVI Document Checklist.

If your application comes under the 'differentiation arrangements' because of your nationality, you should not be asked to provide evidence of finances or qualifications.

You may be able to submit the required documents by uploading them before your visa appointment, although this varies by country so read the instructions you are given by your local visa application centre.

IMPORTANT: Please only provide documentation listed on your UKVI document checklist to avoid significant delays in your application. You will receive the UKVI document checklist after submitting your application. Your CAS statement (Page 1) will also indicate the documents you will likely be asked for. If any documents listed on your UKVI document checklist are not listed on your CAS statement (Page 1), please contact the Visa Compliance Team as soon as possible. Note that unless you are applying as an EU/EEA/Swiss national you will always have to submit your physical passport at some stage of your visa application.

Tuberculosis test results

You may need to be tested for tuberculosis (TB). If your test shows that you do not have TB, you will be given a certificate which is valid for 6 months from the date of your x-ray. Include this certificate with your UK visa application. **Check** if you need to get tested.

Documentary evidence to show funding

If your nationality is listed in ‘**Applicants Who Don’t Need to Submit Evidence**’ you will not have to provide financial evidence but remember you must have the documents available to provide if the UKVI asks for them later (there may be spot checks).

If you are not exempt, based on the above conditions, you must follow the requirements for evidence of funding as specified in the UK Visas and Immigration’s **guidance** and get translations if necessary.

If you are showing evidence of money held in either your own or a parent/guardian’s account, you must be able to show that you have held the required level of funding for 28 consecutive days prior to application. Any documents must also be dated within 31 days of the date you submit and pay for the application, otherwise, your application is likely to be refused.

Documentary evidence of academic qualifications

As you are coming to NU London for degree-level study, you do not need to provide evidence of qualifications. The UKVI allows NU London as a Higher Education Provider (HEP) with a track record of compliance to assess your academic ability and your CAS will state what the assessment was based on.

You must have completed any qualifications listed. UK Visas and Immigration will not accept provisional documents. Please only provide the academic qualification listed on your CAS statement.

Conditions

Note that if your application is successful, there will be conditions on your visa or leave to remain. This will include, for example, whether you can work in the UK.

Declaration

You must declare that all the information is correct to the best of your knowledge. Please note that **you will not be able to edit your application after completing the declaration.**

Immigration health Surcharge

The IHS is a mandatory payment as part of your application. Please note that you will need to pay your IHS charge before you complete your visa application. For information about how the IHS is calculated please see the government [website](#).

Please note that you will not be able to edit your visa application after clicking through to the IHS website. You will be asked to re-enter your course start and end date again on the IHS website and answer some other questions. Use the course start date and the expected end date from your CAS statement.

Application payment

After you have paid you will be prompted to arrange an appointment to provide your biometrics (fingerprint and face scan) which must be done before your application can be processed.

You will be able to select a Priority Visa processing service at this point in the application. UKVI offers three visa processing services:

Standard service: This service provides a visa decision within 3 weeks.

Priority service: This service provides a visa decision within 5 working days.

Super Priority service: This service provides a visa decision within 1 working day.

Please note: Priority services are subject to a higher cost.

These processing times are subject to change and are set by UKVI. For more information on Visa processing services, please see [here](#).

Biometric appointment

You will be prompted to book an appointment to give biometric information at a Visa Application Centre (VAC) or a VFS Global Centre. Please follow the instructions on the application and refer to the Biometrics Appointment Guide in your CAS email before you book an appointment.

If you are an EU, EEA or Swiss national you already provided biometric details when you create the UK Visas and Immigration account. You will not need to attend a Biometric Appointment.

Mail your application and passport

Some visa applicants may be required to mail their application and passport for processing after their biometric appointment. Please refer to the documentation you are given at your biometrics appointment for instructions on how to do this.

If you are required to send your passport for processing you must do this within 5 days of your biometrics appointment.

Visa processing time

Once you have submitted your application online, the processing time starts when you either:

- attend your appointment and provide your fingerprints and a photograph (biometric information) at a visa application centre; or
- verify your identity using the UK Immigration: ID Check app.

You should get a decision on your visa within approximately 3 weeks once you attend your appointment at the visa application centre, however, the processing time may vary.

We strongly recommend that you do not make any travel arrangements before you receive your visa decision.

After your visa is issued

Once your application has been processed you will be issued with a 30 or 90-day entry clearance visa, which will be a sticker (vignette) in your passport, and an explanatory email confirming your entry clearance to the UK and how to access your eVisa.

Once you have received your visa confirmation, you will be able to generate a Share Code, for which the link can be found [here](#). Please ensure that once you have generated your Share Code, you must upload this to CAS Shield under the “Travel Docs” section within the tab called “Digital Immigration Status”. Please note it is very important that you provide this Share Code as soon as your visa application has been approved, as this will allow your Visa Compliance Officer to review your eVisa for any errors before you travel to the UK.

EU/EEA/Swiss applicants will receive an entry clearance email upon their visa decision. You will need to refer to this email in order to see when you are allowed to travel to the UK.

If you are struggling to access your e-visa please contact the UKVI resolution centre [here](#). Please note that you will need to upload a copy of your share code and entry clearance onto CAS shield.

The date you can enter the UK will be the ‘valid from’ date on your entry clearance visa vignette OR the visa start date in your entry clearance email.
